Support to Plan a Funeral Service

At the moment, this aspect of Special Support is a work in progress.

My vision is to offer individual support to anyone who has an additional support need or communication disorder who wishes to plan their own funeral service, or a service for a loved one.

Combining my skills in Spiritual Counselling and training in 'Talking Mats', I would offer this support, working through a sequence of conversations, which would lead to a plan which would reflect individual wishes, and provide a Funeral Director with a plan which can be put into place.

Working in collaboration with Talking Mats ©, we were awarded a Grant from The Big Lottery, Awards for All, to progress a project to develop Talking Mats to support Funeral Planning and Eulogy writing, and to train Celebrants and Funeral Directors.

At the time of writing, we are about to begin a pilot, trialling the Talking Mats that have been developed by working with Celebrants, Funeral Arrangers and staff and residents from The Action Group.

More updates to follow!

Please contact me if you would to know more.
